KEY:

- Site Boundary and Proposed Turbine Locations
- Other Wind Farm Boundary and Turbine Locations

Wind Farms Theoretically Visible

- Shepherds' Rig Wind Farm visible only
- Fell visible only
- Shepherds' Rig Wind Farm and Fell visible

This CZTV image illustrates the theoretical extent from where all or part of the development would be visible from a view height of 2m. The image is produced using terrain data assuming 100% visibility. It does not take account of screening that vegetation or the built environment may provide. It therefore represents a 'worst-case' ZTV and the actual extent of visibility is likely to be much less extensive.
