

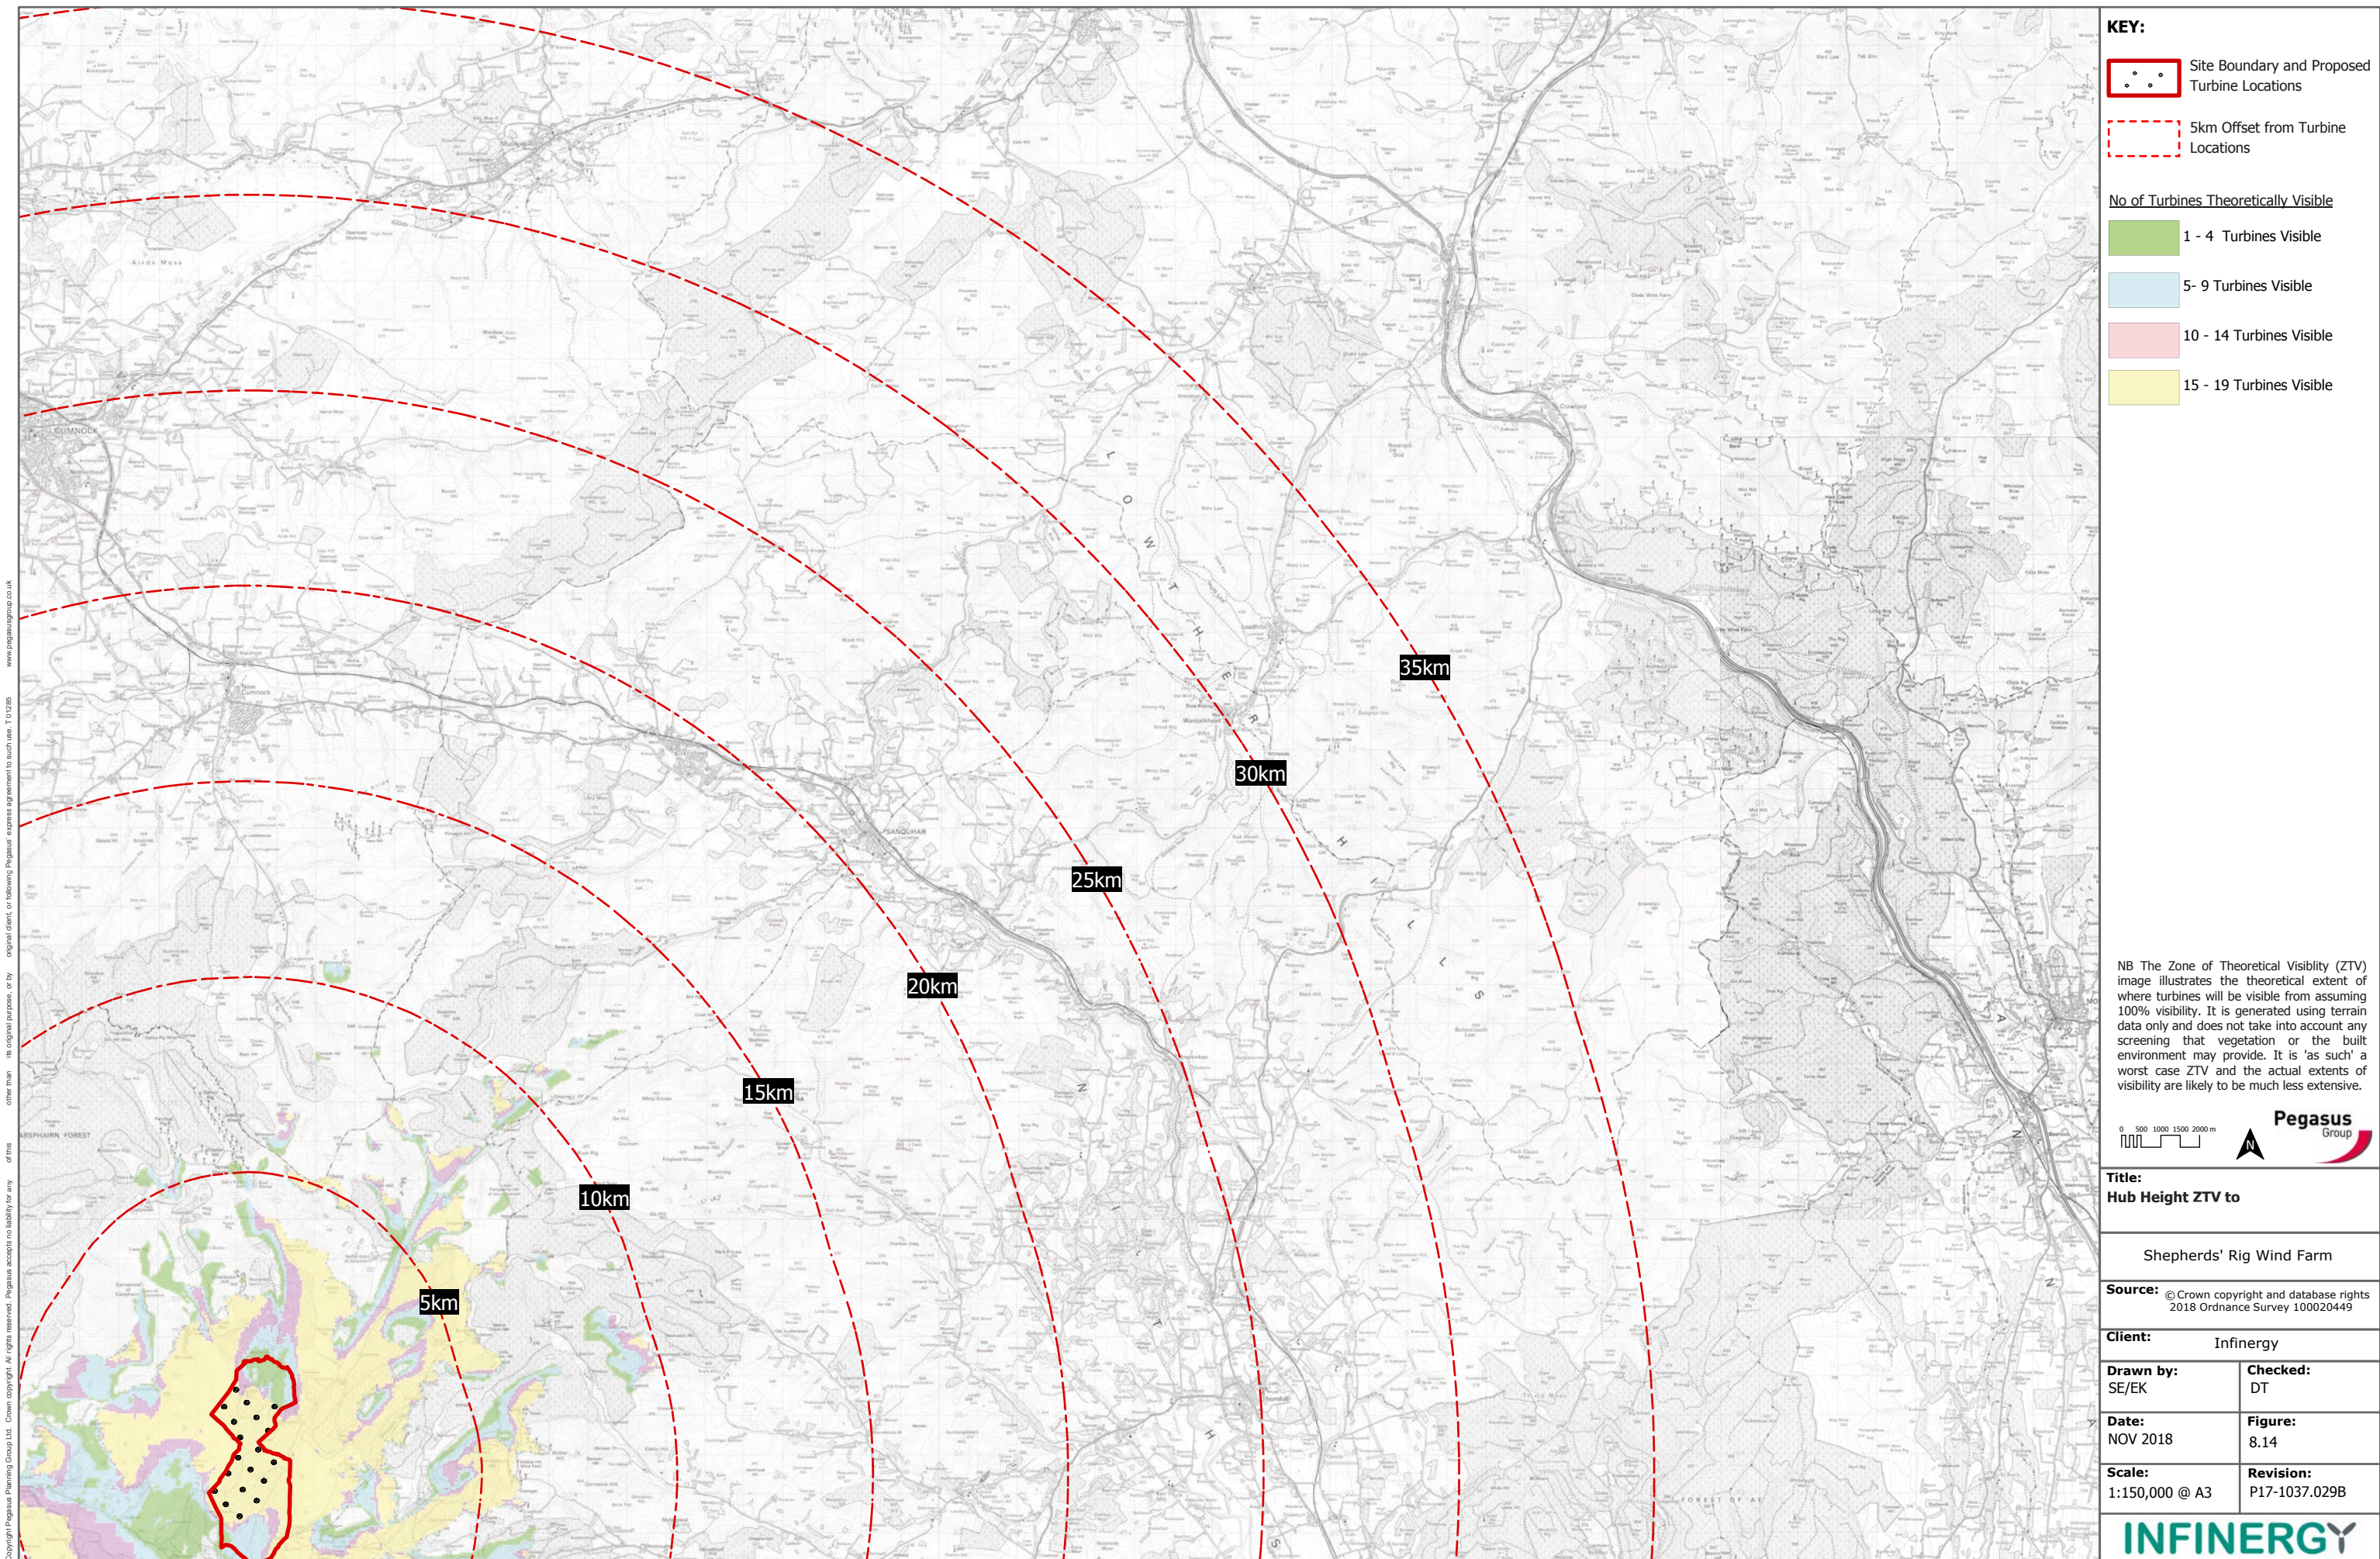

Figure 8.14 Hub Height ZTV to 35 km (NE Quadrant)

KEY:
• • • Site Boundary and Proposed Turbine Locations
 5km Offset from Turbine Locations

No of Turbines Theoretically Visible

- 1 - 4 Turbines Visible
- 5- 9 Turbines Visible
- 10 - 14 Turbines Visible
- 15 - 19 Turbines Visible

NB The Zone of Theoretical Visibility (ZTV) image illustrates the theoretical extent of where turbines will be visible from assuming 100% visibility. It is generated using terrain data only and does not take into account any screening that vegetation or the built environment may provide. It is 'as such' a worst case ZTV and the actual extents of visibility are likely to be much less extensive.
