

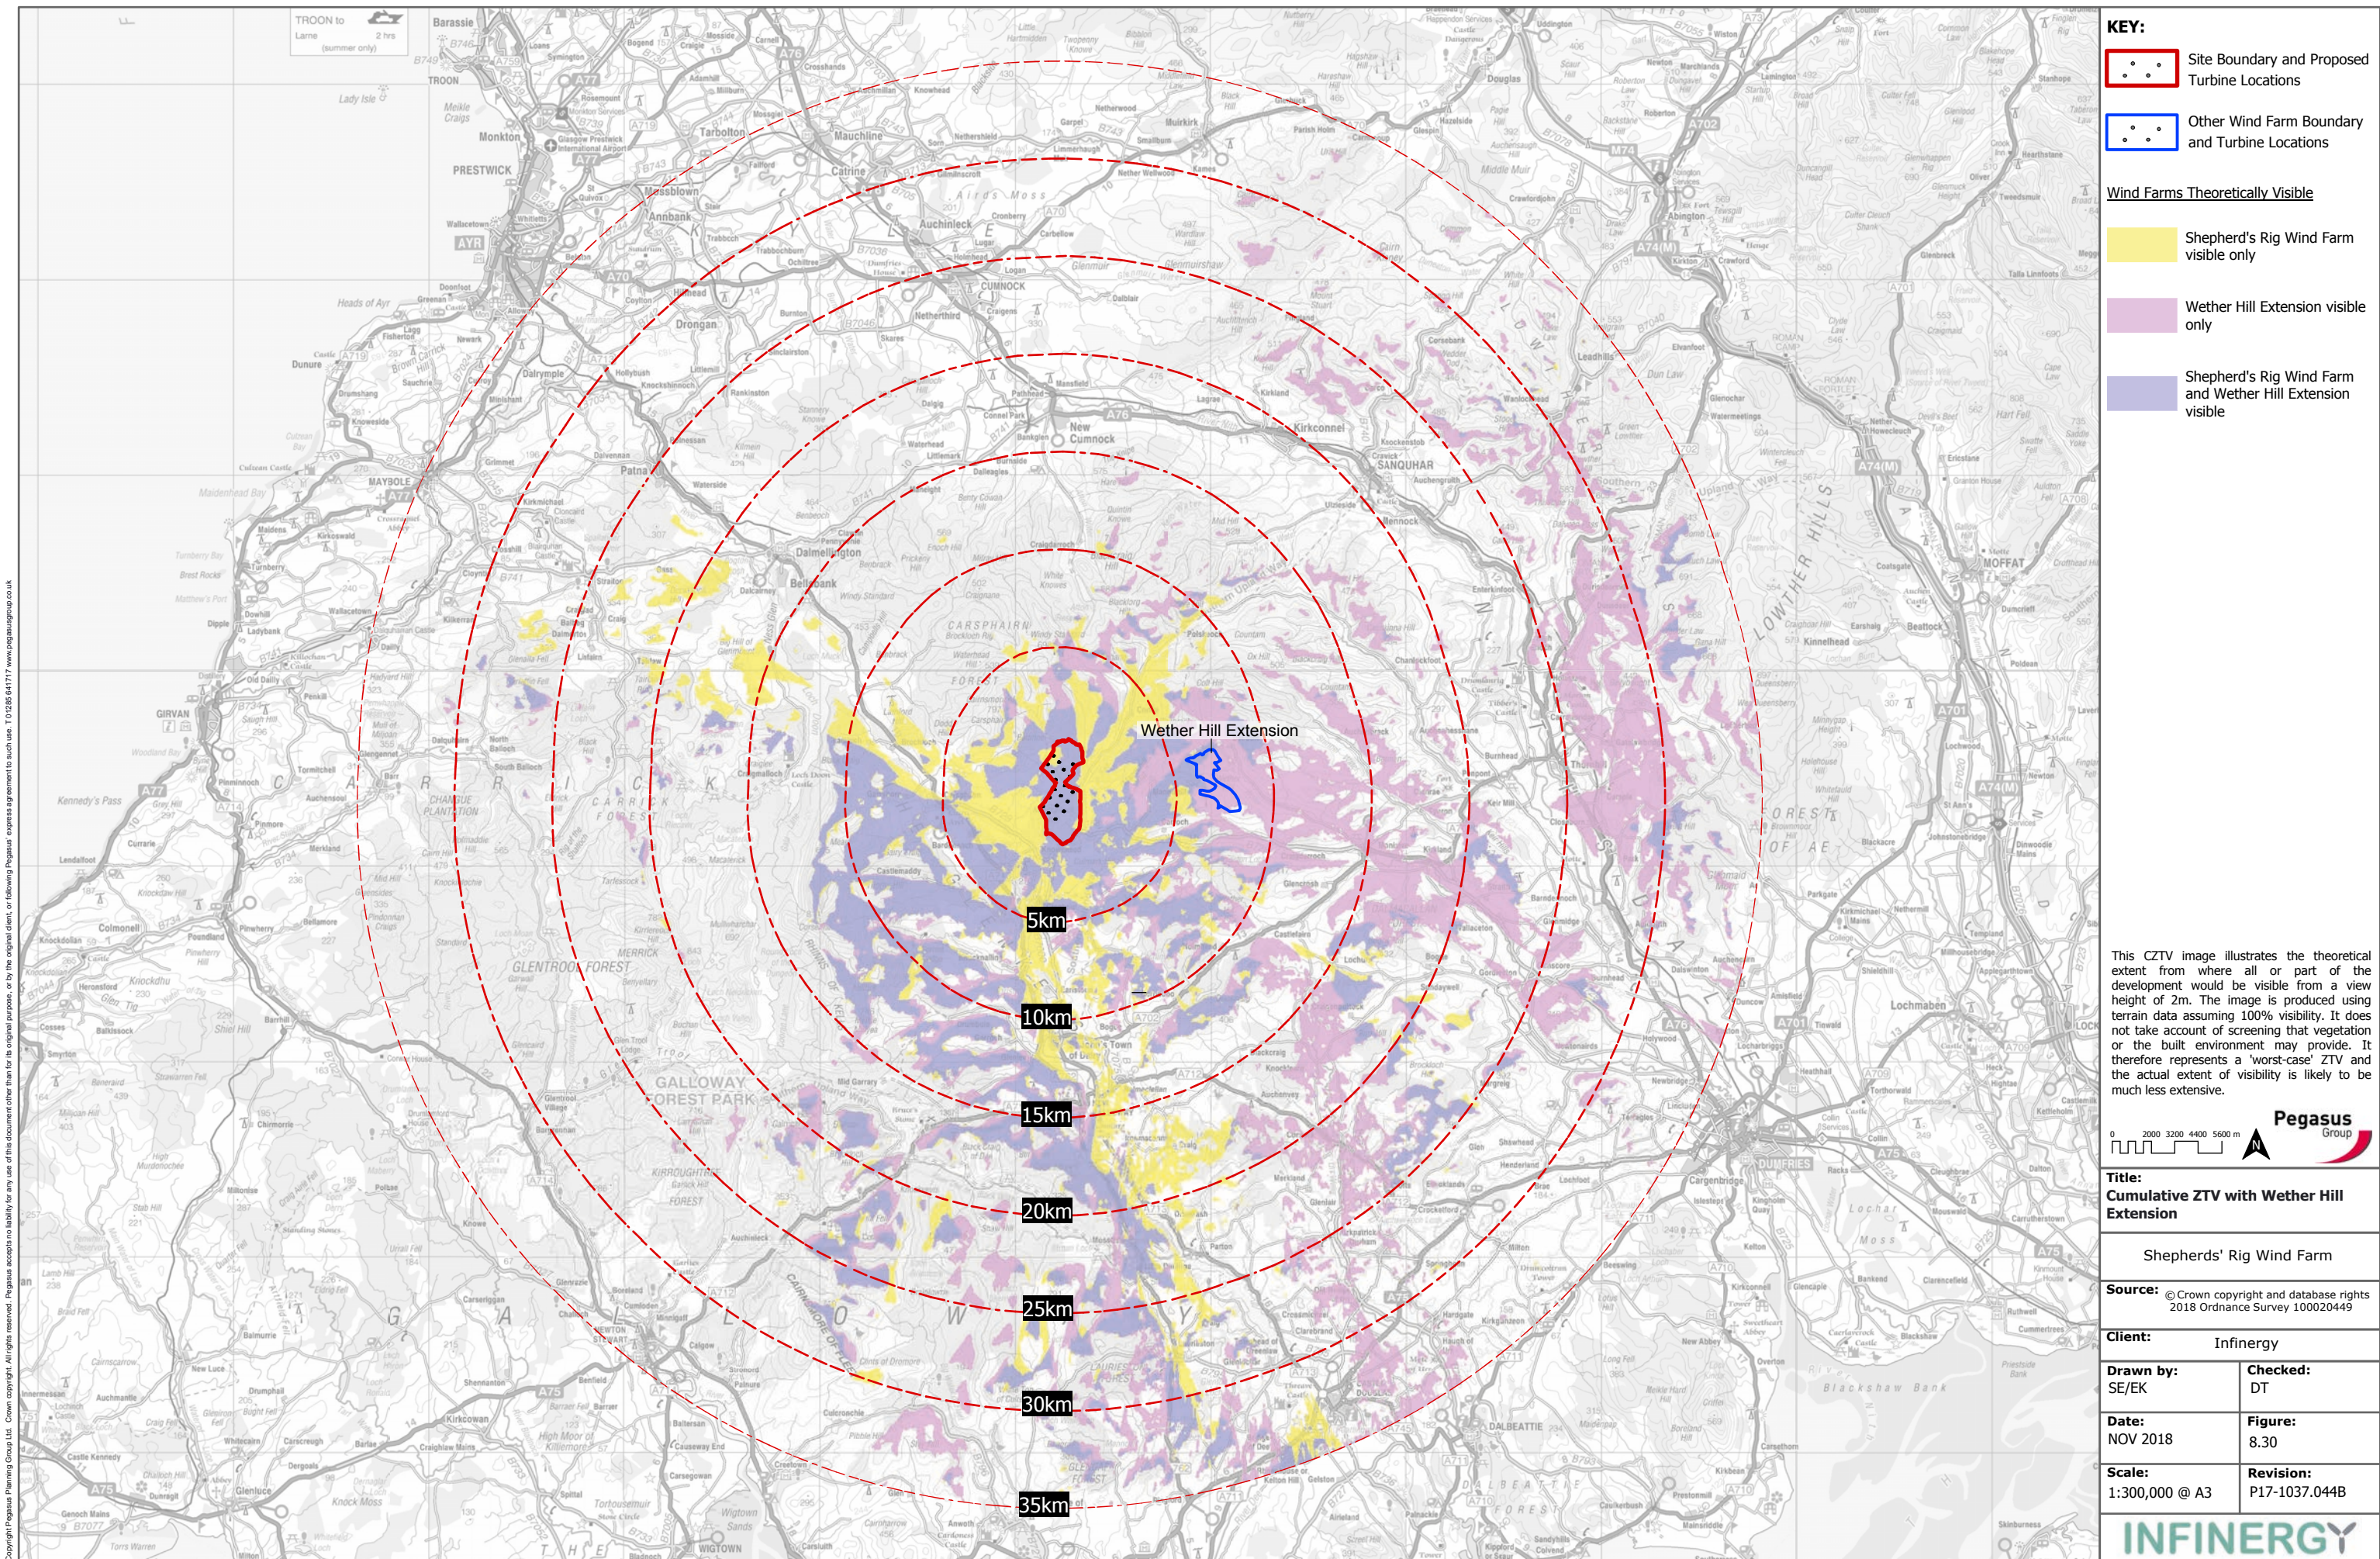

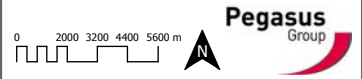

Figure 8.30: Cumulative ZTV with Wether Hill Extension

KEY:
••• Site Boundary and Proposed Turbine Locations
••• Other Wind Farm Boundary and Turbine Locations

Wind Farms Theoretically Visible
 Shepherd's Rig Wind Farm visible only
 Wether Hill Extension visible only
 Shepherd's Rig Wind Farm and Wether Hill Extension visible

This CZTV image illustrates the theoretical extent from where all or part of the development would be visible from a view height of 2m. The image is produced using terrain data assuming 100% visibility. It does not take account of screening that vegetation or the built environment may provide. It therefore represents a 'worst-case' ZTV and the actual extent of visibility is likely to be much less extensive.
