

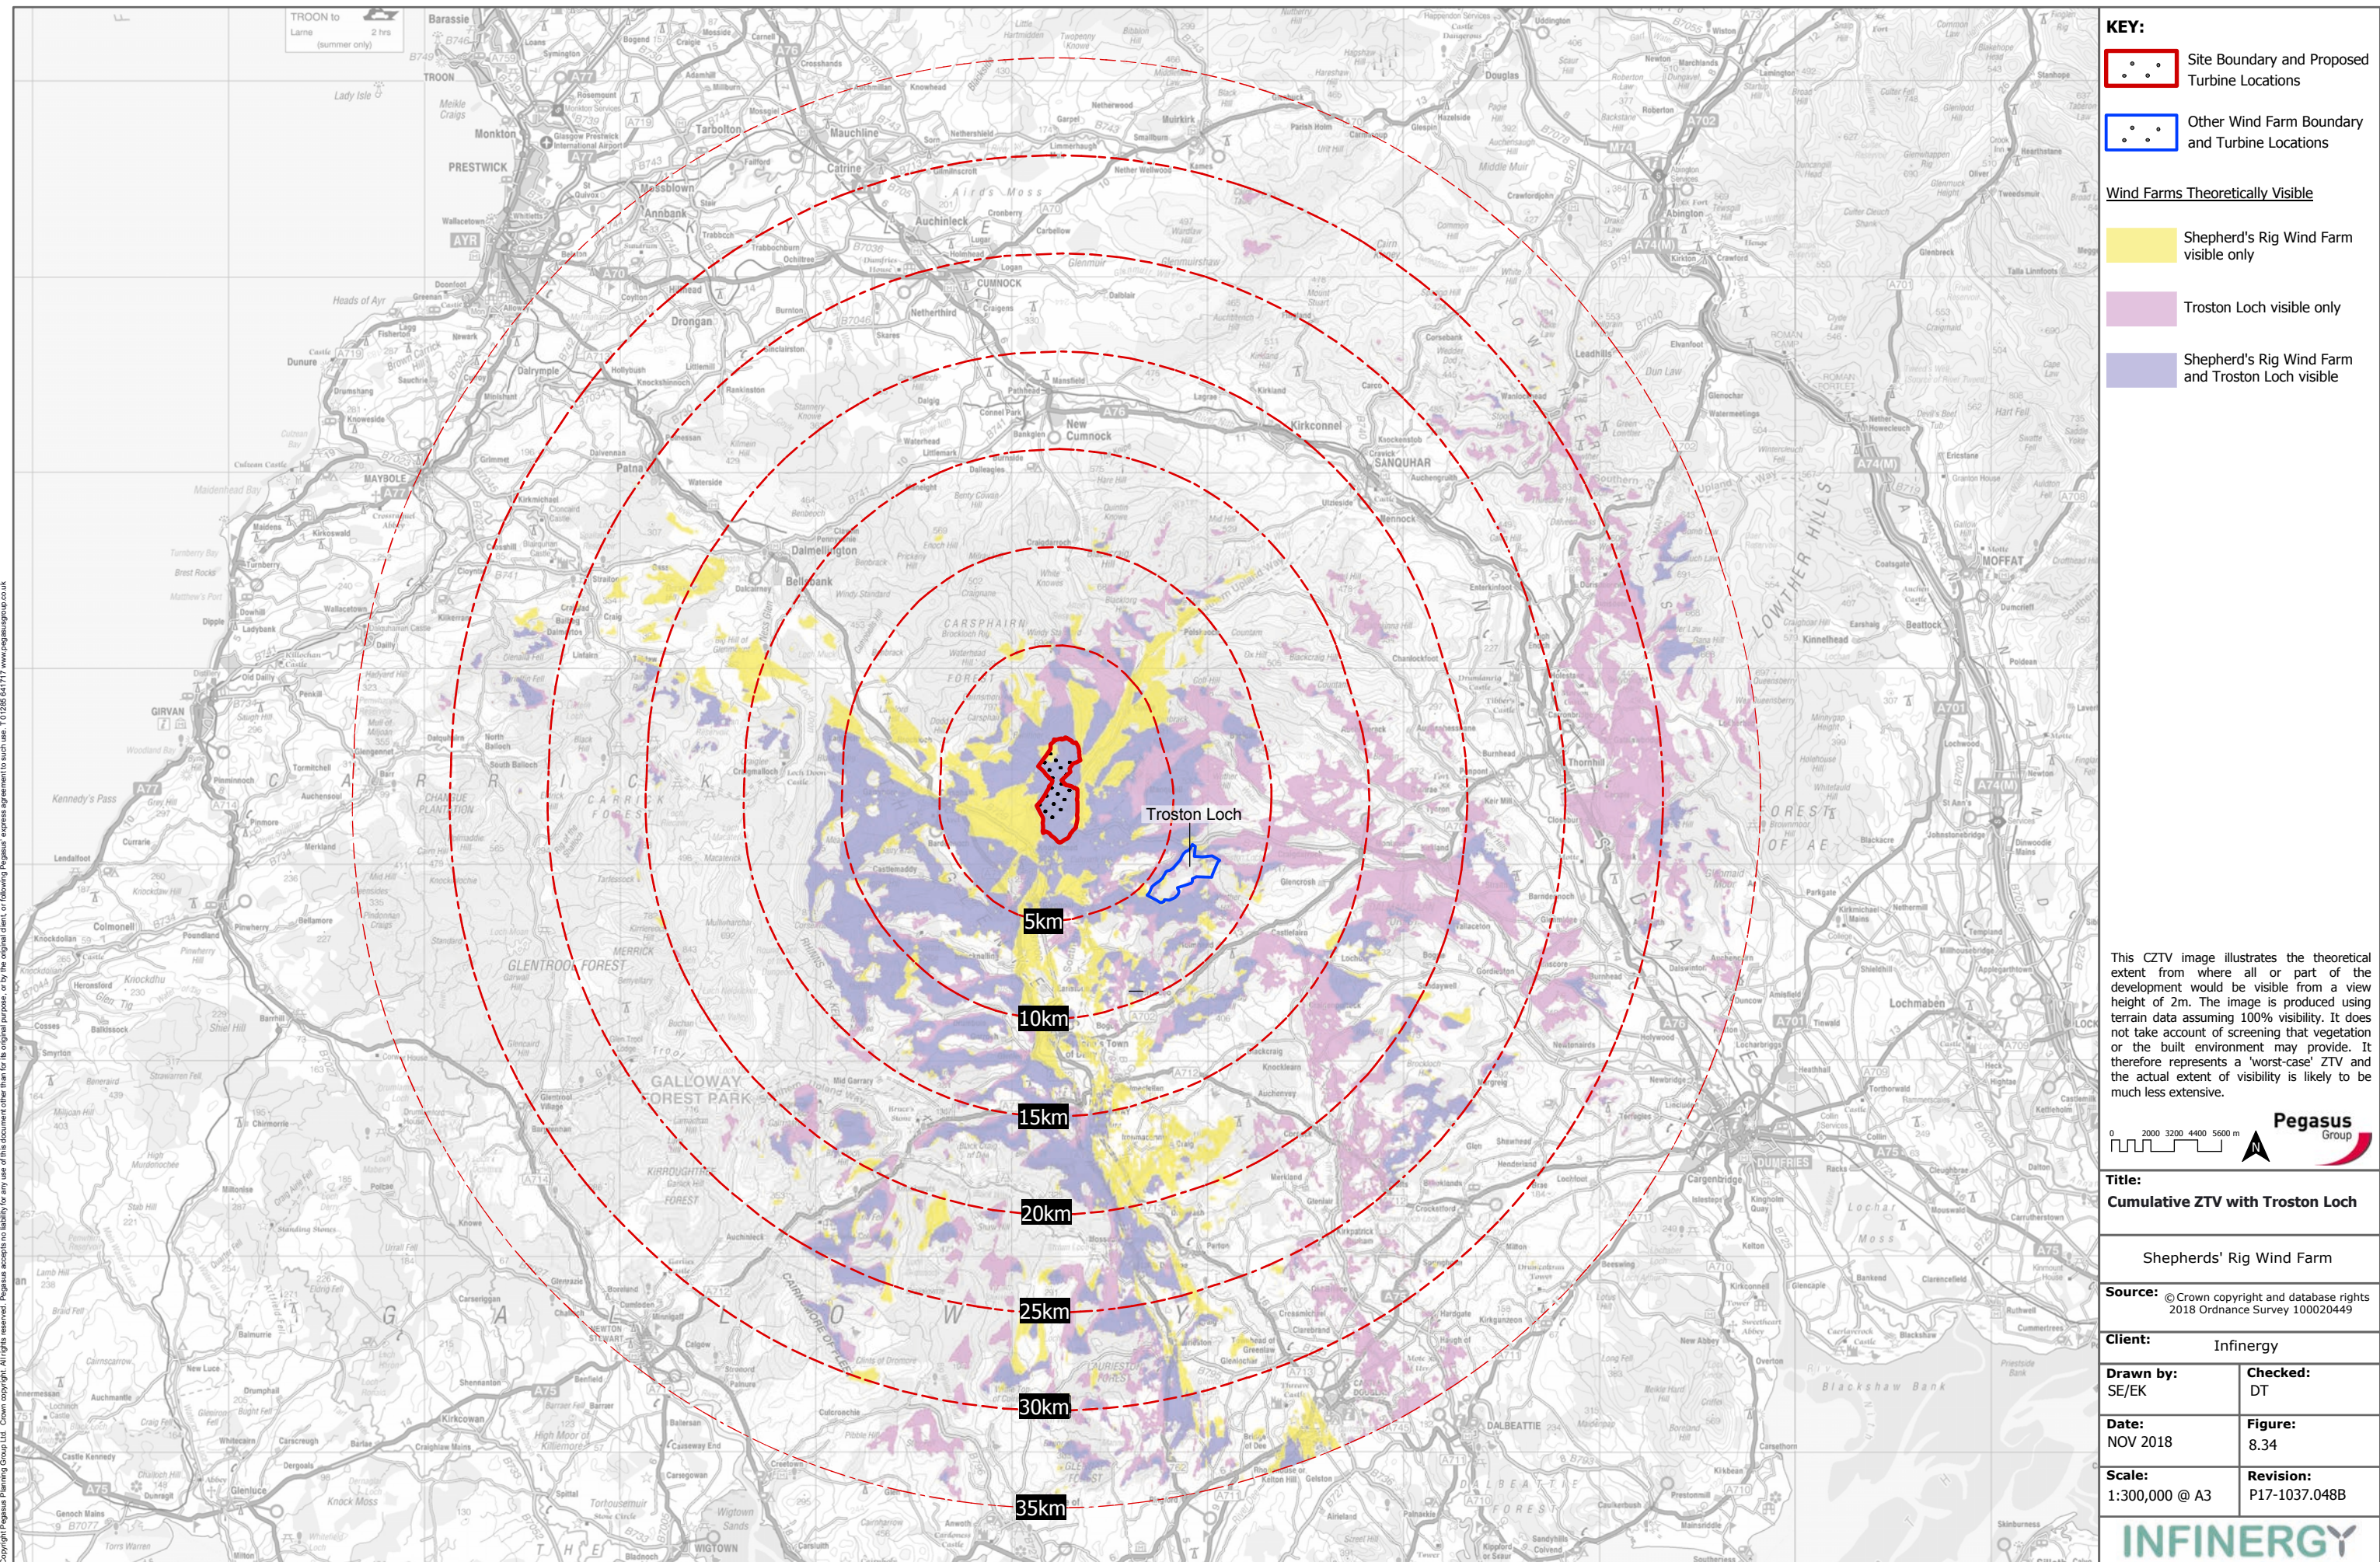

Figure 8.34: Cumulative ZTV with Troston Loch

KEY:
••• Site Boundary and Proposed Turbine Locations

••• Other Wind Farm Boundary and Turbine Locations

Wind Farms Theoretically Visible

Shepherd's Rig Wind Farm visible only

Troston Loch visible only

Shepherd's Rig Wind Farm and Troston Loch visible

This CZTV image illustrates the theoretical extent from where all or part of the development would be visible from a view height of 2m. The image is produced using terrain data assuming 100% visibility. It does not take account of screening that vegetation or the built environment may provide. It therefore represents a 'worst-case' ZTV and the actual extent of visibility is likely to be much less extensive.
