Online Consultation

Welcome

September 2024

Welcome to the Online Consultation for the Shepherds' Rig Wind Farm project. Thank you to everyone who managed to make it along to our open day. If you didn't manage to make it or you'd like to look again at the information presented, you will find all the information and landscape and visual panels that we displayed below. You'll also find a feedback form to fill in or you can email us directly with comments or questions at info@shepherdsrigwindfarm.co.uk

Community Open Days

The first Community Open Day will be held in Lagwyne Hall, Carsphairn.

Tuesday 10th September 2024

You can fill in a feedback form on the day, or fill in the one in the link below and send it to us afterwards.

Lagwyne Hall, 1.00pm to 7.00pm

A subsequent Community Open Day will be held prior to any application being submitted.

Information Panels

Here you will find the information panels we will be displaying at our in-person Community Open Day.

Please note, visualisations can give an impression of the appearance of a landscape and proposed wind farm however neither photographs or visualisations can convey a view exactly as it would be seen by the human eye in reality.

Feedback Form

We would appreciate you taking a moment to complete the following questionnaire so we can find out more about your views on the wind farm proposal this consultation is all about. The aim of this questionnaire is to allow individuals to contribute to the development process and interact with Infinergy. This is not a substitute for the official planning process. No personal information will be passed on to third parties.

Please click [here](#) to access the form.

Thank you

Many thanks for taking the time to visit our online consultation. When the consultation period is over, we will transfer all of the relevant files to the Documents section of the website. If you have any further questions at any time, please don't hesitate to contact us by email at info@shepherdsrigwindfarm.co.uk

ABOUT

We are a renewable energy company, committed to increasing the use of zero-carbon electricity. Power which is generated by wind and solar PV projects allows us to fuel our modern-day lifestyles whilst living in harmony with our natural environment, preserving it for generations to come.
